

Family Fun at Amilla

Amilla Maldives Resort and Residences welcomes families of all sizes. There are Villa and Residence accommodation options that can sleep from four to 20 guests. We understand that travelling with children calls for special requirements, so we're here to help with services, amenities and activities.

Food and Drink

Children under two eat for free from our Children's Menu. All our restaurants offer kids' menus with wholesome healthy options as well as favourites like chicken nuggets. Your little ones can colour in their menus while enjoying their treats. And ice-cream is free, all day, every day, at Amilla.

Sultan's Village Kids' Club

Our Kids' Club programme is designed to integrate learning into play in fun ways. We take the children outside to experience our gardens and beaches, and they can even learn to snorkel. All children are welcomed by our Kids' Club team with an arrival backpack made from ocean-bound plastic in the shape of white-tailed tropicbirds - our resident endangered birds. The bags contain the weekly schedule and also a new 'friend' for them to cuddle.

Teens' Programme

There is nothing worse than being a bored teenager, so we've devised a programme of diverse activities to keep your teens active and engaged, from Aerial Hoop workshops to chess lessons and DJ workshops.

Peace of Mind

Watersports

The water world of the Maldives is one of its biggest attractions - and its biggest sources of fun. Our partner, Dive Butler, offers a range of watersports options for all ages. Non-motorised watersports like kayaks are complimentary, and for a faster pace we also offer motor-powered experiences including fun tubes, banana boats and jet skis.

Mini Movement Programme

Our creative Kids' Club team has joined forces with our Javvu Spa movement specialist to create a variety of fun children's movement activities. From Mini Zumba to Laughing Yoga and Kids' Meditation, we'll help keep their bodies and minds active.

The Future of Earth is in Their Hands

Safety Turtles

As an island nation surrounded by water, we want to help you keep your little ones safe. Ask our team about our Safety Turtle devices. Designed for tots, they feature a wristband linked to an alarm that will go off if the band hits water.

Mini Marine Biologists

Kids of all ages can now learn about the fragile marine eco-system here through this unique interactive course. Through fun learning sessions with our resident Marine Biologist, they can earn badges covering seven different topics. Upon completion, they are awarded with a Mini Marine Biologist Certificate, as well as a rosette to proudly pin their seven badges to.

Babysitting

We have a team of trained babysitters on site at your disposal so you can enjoy some romantic moments with your partner. They can be booked through your Katheeb, priced at 20++ per hour.

Fun Activities

The fun never ends at Amilla, with a football coach available for complimentary group training six days per week, as well as private lessons. There's also private coaching from our LUX Tennis partner, an Art Studio offering kids the chance to unleash their creativity, volleyball courts, bicycles and much more.

Kids Spa

Javvu Spa offers our smallest guests a bespoke children's spa menu that includes manicures, massages and body scrubs.

Diving for Kids

Our dive partner, Dive Butler International, offers children as young as five the opportunity to experience the underwater world with professional guidance. The SASY course is for ages 5-7, Bubble Maker is for those aged 8-9 and Discover Scuba is for anyone ten and over to enjoy.

Equipment

A wide variety of special items for children and babies can be provided in your villa prior to, or after, your arrival. Available items include:

Baby Cots
Bed Guards
Baby Monitor
High Chair

Bottle Warmers
Bottle Sterilisers
Baby Bottles
Stroller

Potty
Nappy Changing Mats
Nappy Wrapper
Baby Bath
